

Conte Metal Mec S.r.l. is an Italian Company, with an history of more than 100 years, that constructs **equipment for load lifting, moving and handling of metallurgic products.**

The **high quality and reliability** of our products (EC certified) is proved by more than 3000 equipment sold all around the world, especially **tilters, cars, grabs and hooks for moving coils and plates.**

We are supplier of the most important steel and aluminium groups world-wide such as Arcelor-Mittal, Alcoa Aluminium, Thyssenkrupp, Corus, Tata Steel, Electrolux, Toyota, Marcegaglia, Ilva, Gonvarri, Acerinox, Hindalco etc.

After long period specialized in the coils handling, in recent years we have strongly developed and focused in the handling of sheet packs, starting from short lengths arriving up to 16 meters, and covering all weights needs up to 22 tons.

Conte Metal Mec is also ready to study and realize custom made solutions for any type of material.
